Import of the project codes and cost centers. Relevant master data to be assigned to users

User maintain their hours in Jira with tempo timesheet

Allocate costs based on the timesheet. Creation of invoices

**LUPUS** CONSULTING

# Why are we integrating SAP and Jira?

## Benefits of the integration

Automated synchronization of SAP data (Project code and cost center) with our Jira Template

Reduce manual interaction during financial closing and project controlling

Incorrect or missing data becomes visible immediately due to automated checks

Simplifies tool-usage
